The declination of J. Thomas Goode, he Populist nominee for Congress, who s contesting the election of Congressman party, is significant. He feels hopeless of the success of the Third party, and would, if possible, throw the votes of its friends for the Republican candidate. In this he will not succeed. In his speech before the Democratic convention last night, Mayor Ellyson, of Richmond, said that "Many who were against us last very are with hes now," and this fact is celleved to be the reason of Mr. Goode's declination. It is certain that a great many of the honest farmers of the Southside counties will never consent to be transferred into will never consent to be transferred into the Hepublican camp, and that they will vate the Democratic ticket if they have no candidate of their own to support.

The meeting was held in the court-house, and was called to order at 11 o'clock by Mr. W. P. Walker, traffic manager of the railroad. Mr. Walker, in a neat, and business-like way, explained the object of the meeting, saying that the authorities of the railway had called this the object of the meeting, saying that the authorities of the railway had called this meeting in order to get the railway people and the farmers along the line in closer touch, and to adopt a plan of handling their stuff more satisfactory than at present, and also to show to their patrons that the railway company is not a souliess corporation, as at present recognized, but is willing to do all in its power to ald them in their work and to attendate and encourage the infant industry of truck culture in this section. Mr. Walker's remarks were well received. PETERSBURG, VA. Sentember 20 -

Mr. L. F. Barnes, of New Kent, was then made chairman, and Mr. E. D. Hotchkiss, general freight agent of the road, wan made secretary. A motion was then made that a committee representing every section along the line be appointed to formulate a suitable plan of action for the meeting. This motion prevailed, and the Chair appointed the following: R. P. Wright, W. B. Vaiden, D. W. Marston, C. A. Branch, J. H. Allen, Judge H. B. Warren, E. T. Martin, A. J. Barnes, and T. P. Marston, of James City; S. Goddin, Philip Richardson, A. Hockaday, M. H. Barnes, Dr. Turner, and Mr. Kyle of New Kent.

THE PROPOSAL. The committee retired, and presented the The committee retired, and pleased following. In substance:

Indications become stronger and stronger that the Republican congressional candidates in Virginia do not really expect to win in any of the districts, but from what can be heard they will nearly, if not all, make contests for the seats in the event their party should obtain control of the next House of Representatives. The main basis of contest will be the Walton law. They will claim that the law is an unfair one, and was succially framed by the Democratic Degislature to deprive the Republicans of votes.

Already it is stated freely here by some of the Republicans that a large percentage of the negroes will positively refuse to enter the booths at the approaching election and ask the constables to mark their ballots.

OHIO,

OHIO. The friends of Senator Brice around Washington were very broad smiles to-day. They were much elated over the re-port from the convention in Ohio yester day. They were much elated over the report from the convention in Ohio yester! day. It had been given out far and wide that the free-trade element in the convention would start out to shear the junior senator, and he would be so humiliated he could not afford lenger to hold his seat, but would in a fit of disgust tender his resignation. Somehow or other the other fellows got sheared, and what will disgust the Mugwump and wild cranks who have sought to dictate Democratic platforms this year is that rank free-traders like Larry Neal and Frand Hurd were special champions of Senator Brice.

ocrats in convention did not make such fools of themselves as some people predicted. On the contrary, they adopted a most sensible platform, take it all in all, and it will go far toward beloing the

party in the Buckeye State to regain the losses of the past year.

A significant fact which is commented on extensively here is that the Ohio Democrats, like the Missouri and other intel ligent Democrats, came out boldly an unequivocally for the free and unlimite coinage of silver at a ratio of 16 to 1 There was no straddle or rubbish in the and the "true bimetallic system." What the Ohlo Democrats favor they ask for in plain words, and the baue they recognize as the pressing one for the future.

RAILWAY LABOR TROUBLE.

Missouri Pacific Discharging Engineers and Firemen for Strike Sympathy.

LITTLE ROCK, ARK., September 20.—
As the last smoke of the recent railroad strike dies away an ominous cloud appears in the horizon, which may yet break with scarcely less fury than did the trouble of last July, involving the State and possibly the whole country in another labor war. Since Saturday the Missouri Pacific is said to have discharged fourteen firemen and six engineers at this end of the line and eight or ten firemen at Van Buren on the charge of being implicated in the strike or expressing sympathy with it. There are said to be twenty-live more names on the list of men to be decapitated soon. The majority of these men refused to go out in the strike, but some of them canually expressed sympathy with the strikers, and for this peason are being decapitated.

The railroad men are very much exercised over the action of the company, and it is stated on good authority that the Brotherhoods of Locomotive Firemen and Locomotive Engineers have issued an ultimatum to the effect that unless the company reinstates the men thus discharged by September 26th a general strike will be declared.

It has been learned later that five firemen were dismissed to-day.
